Student Feedback:

Every educator must gather student feedback and use this feedback to inform their practice at some point during the year. (note that Unit B educators will gather staff feedback). Once the educator gathers and uses student feedback, the evaluator and educator must discuss how the use of the student feedback impacted the educator’s practice. Educators will share how they collected feedback from students/staff and how that feedback has informed adjustments to practice. The conversation about student and staff feedback focuses on the educator’s reflections and impact to their practice. This conversation could occur during the summative evaluation conference or earlier in the year.
