Summer 2019**

Now Enrolling! Join us for one or more sessions!

Preschool Summer Program

Our integrated preschool summer program for 3, 4, and 5 year olds includes children with and without disabilities. Classrooms include 14-16 children with a variety of learning styles.

The goals of our program are:

- To include all children in an inclusive, supportive and engaging learning environment.
- To promote the love of play, friendship and learning.
- To meeting the individual and unique needs of all children.
- To have fun!

Our Program Philosophy

We believe that an inclusive education provides all children with the opportunity to learn with and from each other. All children gain valuable experiences in an environment where children are different in their abilities. Our curriculum is based on the Guidelines for Preschool Learning Experiences (Massachusetts Department of Education). We utilize play as an important vehicle for learning both early academics and social skills. We believe our inclusive program builds a lifelong foundation for respecting human differences.

Summer Staff

Each classroom is taught by an early childhood special education teacher and supported by 2-4 teaching assistants. A variety of therapists (Occupational, Physical, Speech and Language, etc...) spend 1-3 days in each classroom.
